## Summary

Fullstack developer with high motivation to learn and improve skills. Great for working in fast paced environments and meeting deadlines. Quickly learns new software packages and hardware technologies.

## Experience

### Full Stack Engineer

Self Employed

May 2022 - Present (1 year 2 months)

Working on several Web Applications (front and back end) while progressively improving my skills as a developer. I have developed many applications using JavaScript, NodeJS, ReactJS, SQL, python, and HTML5/CSS.

### Contractor

Southern Industrial Constructors, Inc.

Jan 2022 - Oct 2022 (10 months)

Operating machinery and tools to move large, heavy equipment for clients, usually working 50-60 hour weeks. No longer working there due to school taking up more time.

### Tennis Coach

Endeavor Charter School

Mar 2018 - May 2021 (3 years 3 months)

Training players to develop a higher skill level for competition.

## Education

### Wake Technical Community College

Associate of Science, Computer Programming and Development

2022 - 2023

Prepares learners to design and develop desktop and web applications.

Graduates will be proficient in Java, C++, HTML5/CSS, JavaScript, MVC, REST, unit testing, and SQL. Graduates will be able to support the software development needs of businesses in a wide variety of industries, including healthcare, manufacturing, insurance, finance, and software publishing.

### Zero To Mastery Academy

Complete Python Developer Bootcamp, Computer Programming

2022 - 2022

This Python coding bootcamp from Andrei Neagoie has become one of the most popular and highly

rated Python coding bootcamps online. Graduates of Andrei's Python bootcamp are now working at Google, Tesla, Amazon, Apple, IBM, Uber, Facebook, Shopify + other top tech companies. They are also working as top freelancers getting paid while working remotely around the world.

## **Zero To Mastery Academy**
